

# REVOLUTION WORKS

MODULAR HOME PROVIDER

*It all starts with a Strong Foundation*

# ABOUT US

- **R**evolution Works is a progressive and innovative company that has a broad selection of ranges to offer for its customers. Revolution Works was started with the idea of placing the customer above everything else. This is why we are like no other, we accept difficult tasks that others might not want to endure. We have helped small and major businesses alike and we are fully confident we can help you too.
- **S**ince our founding, we've worked with numerous clients throughout the area. Our great service begins and ends with experienced and friendly professionals, which is why we put so much consideration into selecting only the best to join our team.
- **We** complete projects efficiently and on schedule, and go above and beyond to form lasting relationships with our clients.
- **Did** you know that you can create your unique home by making your own plan, with your own measurements, decide on your own rooms and choose your own home appliances?

*Exceeding your expectation is  
our prime mission*

*Isn't that fantastic that Every house is build especially for you!*

# BINGO

# BINGO

**Bingo** ranks is amongst our smallest houses, despite its small size the area of 26m<sup>2</sup> is very comfortable and an extremely functional property to own, it has everything it needs to be categorised as a mobile house. It is a perfect choice for recreational areas, small garden plots as well as for rental summer homes.

The bingo house will allow for a heart-warming outdoor experience on the lovely terrace overlooking the location it is set in. Being a mobile home allows you to choose the view you will see from the terrace. Constructed from just one segment, it is just as mobile as a caravan, whilst not needing to rely on any heavy lifting.

Too small? We have a larger option available: **BINGO LONG**

# BINGO LONG

We present to you the larger model called...

## Bingo Long

# BINGO LONG

With an area of 35m<sup>2</sup>. We added an extra bedroom to this model and the result was a very comfortable and practical home, Which builds on the original appeal of the Bingo home.

# AMIGO

# AMIGO

Amigo is a home that is made of two segments which in total offer an area of 35m<sup>2</sup> of well-designed and organised living space. It is a perfect holiday or parkland home as it offers a sleeping area for 2 and 1, a large kitchen, well-spaced living room and a high-end bathroom.

One of the advantages of this house is the ability to transport it on a normal transport vehicle which reduces the delivery costs and able the home to change location as often as you require.

The most effective use of the Amigo is for people that seek to enjoy outdoor activities and seek a cosy haven to relax in afterwards. You will find that sitting on your outdoor terrace during a sunny day will bring you the feeling of deepest comfort.

QUBA

# QUBA

The Quba contains a big living room with a garden exit, which is also connected to the kitchen and dining room. In the second part of the house, you will find a large and comfortable bathroom and a cosy sleeping room with a big wardrobe.

Perfect for a holiday, campsite or recreation park, it's constructed from a single segment which despite the simple design is extremely functional and offers everything you would expect from a mobile home.

FAMILY

# FAMILY

This is one of the best family lodges and could be used throughout the whole year. Our design allows this fully comfortable home to accommodate a large number of guests should the need arise.

These houses have measurements of 4m x 12m which includes a spacious living room with a garden exit, which is also connected with the kitchenette. In the second part of the house, you will find a bathroom, a small bedroom with one/two beds and a comfortable master bedroom.

Immense comfort and a feeling of safety are provided by the high standard of equipment while providing you with relaxation during the whole year.

PUMA

# PUMA

**P**uma is a house with a style that will pleasantly surprise you with its atmosphere. The house includes two 3 m x 10 m segments. The total interior is 35-40m<sup>2</sup> while a terrace takes up the remaining 20-25m<sup>2</sup>.

**P**uma includes two bedrooms, a bathroom, and a large living room with a dining area, and the kitchen which both have access to the terrace. The terrace is very large and can be roofed or opened which is a huge advantage of this house, especially when you can relax outdoor even on rainy days.

COZY

# COZY

This is our flagship product and it consists of a 66m<sup>2</sup> space that is filled with a living room, kitchen, dining room, a master bedroom, one guest room that can fit two single beds, and naturally, a bathroom.

The furnished living room consists of a sofa, TV and a spacious interior making it the best place to sit down and rest your legs after a long day of outdoor activities.

The terrace is your little corner to read a book or listen to one whilst sunbathing.

The Cozy house is one of our most customisable products allowing for most major and minor changes to suit your needs.

The kitchen includes a bar-style table accompanied by all of your kitchen necessities. There is also a large dining table, brilliant for a family breakfast accompanied by well-positioned windows offering natural light making the breakfast delight.

# PALACE

# PALACE

The “palace” house includes three large segments and a small vestibule. The house is a complete innovation on the mobile house's market, the area of the house is dependent on the customer with the smallest version being 88m<sup>2</sup>, however by enlarging the segments we can get quite a large house.

Every Palace house has five bedrooms, a luxurious living room with a passage to the terrace providing you with a beautiful sight from the interior, a dining room with a kitchenette containing all of your kitchen necessities, two bathrooms equipped with showers and a storage compartment. Depending on your needs this house is fully customisable including design and configuration.

It is worth mentioning that all our products are equipped to deal with different seasons, so regardless whether this is your home, autumn retreat or summer retreat: The households will offer you that lovely draft through your house during summer or a cosy shelter from the cold or frightening weather.

# TINY

The TINY house has measurements of 2.5m x 5m.

On the surface level, there is a 12m<sup>2</sup> living room where should you desire, we can implement a sofa bed, kitchen or a fully equipped laundry room.

Above the living room, you'll find a bedroom with a very comfortable double bed, and above the bathroom, there is a customizable space that can be utilised in many different ways.

The TINY house, despite its small dimensions, is spacious and comfortable so much so there is a sleeping room for 4 adults.

TINY house is a perfect solution for lovers of a minimalistic architecture as also for any form of camping or temporary residence. Despite being small the TINY house doesn't compromise the level of comfort attained, it enhances it giving it that warm cosy feeling of a minimalistic home.

This house is mobile as it is on wheels and due to its dimensions, the house can be legally registered as a caravan and towed on UK roads

# SMART BATHROOM

# SMART BATHROOM

The mobile toilet offers the perfect solution to a; dressing room, toilet, sanitary facility and toilette. This is perfect for camping, a pool party, outdoor centre.

Main advantage of the mobile toilet is its reusability as you can transport the segment with ease and use it anywhere whilst decreasing costs relating to transportation.

For a small added price it is possible to make the facility even simpler to move around by placing its hydraulic system embedded within the facility.

SMART8

# SMART8

**S**MART8 is an all year office container that can find perfect use in a larger number of business sectors. The standard layout of this product consists of a comfortable sleeping solution for 8 people. Container contains two bedrooms (4 people each), two bathrooms and one spacious kitchen with dining room. There is a possibility to rearrange the plan or change measurements depends on your needs.

**S**tandard measurements are 10 m x 3.5 m

**P**roduct fitted on a steel frame with 3 axles which enable it to be registered as a caravan and can be towed on the road, this is a fantastic future if you have to change location often without the need to install and pack up each time, just turn up put the brake on and wheel chocks and you're ready to go.

# PANDA

# PANDA

The panda security house utilises a strong steel frame, which makes it a perfect first line security building under any circumstances. Panda can be customised to client specification, with regards to facilities and size.

# EQUIPMENT & SPECIFICATION

**Understanding that all customers have different specifications and needs is our approach, that's why we provide different options for finishes for our amazing ranges.**

Panda	2.5 x 5	8 x 16

All of our ranges are constructed in segments, some like the Bingo or the Family are single segment homes, however with the ability to be fully customise all of our ranges are made exactly to clients specification with the accuracy to the millimetres, our fantastic designers and engineers we were able to remove limitations and create new design applications that have allowed us to offer a wider choice of sizes like having a Family home with a selection of up to 4 bedrooms.

Besides, we offer even more customisation options as we want our customer to know that they are in full control of what the new product will look and feel like. We can supply many extra features such as decking, bespoke furniture and extra efficient solution. We also work with a wide range of partners to provide more advanced products such as hot tubs and outdoor solutions.

All products in the catalogue are stock options with their standard measurements.

## Segment Sizes

2.5m x 5.0m  
8ft x 16ft

Maximum  
4m x 12m  
13ft x 40ft

Final prices dependent on options chosen, for 100% accurate quotation please contact us.

# ECO SMART HOME

As a part of going 100% eco-friendly, we also provide a range of solutions for wind turbines that in conjunction with solar panels will make your home(s) pretty much self-efficient.

We can install individual systems such as...

- Thermal Panels
- Photovoltaic Panels
- Midsize Wind turbine

As a special **Hybrid system**, with all this, installed you can easily have enough electricity for the whole day including using high consuming products like dishwasher, washing machine or kettle. On top of that, you will also gather enough thermal energy to run hot water all day.
